

9th Geothermal Get Together

Beer van Esser

Committee member Stichting DAP

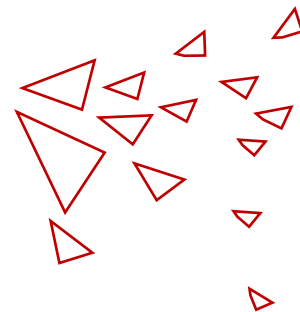

Msc student Geo-Energy Engineering

Agenda

- 15.30 – 15.35 : Welcome / Introduction
Beer van Esser, DAP
- 15.40 – 15.55 : Working together
Andries Wever, founder DAP
- 15.55 – 16.15 : CSI – Corrosion 'Schmoo' Investigation
Ayla Reerink, Veegeo
- 16.15 - 16.35 : Development of geothermal energy in the province Zuid-Holland
Youri Nijse, Provincie Zuid-Holland
- 16.35 - 16.55 : Acceptance and framing of geothermal energy
Jeanne Steijn & Anita Trisiah, TU Delft/ DAP
- 16.55 - 17.00 : Closing remarks

DAP's History

- Established in 2007
- Assisted horticulture in designing and drilling geothermal wells in the Westland
- Involve students in and convince TU Delft to consider switching to geothermal energy

DAP's Mission

- **Produce** geothermal water to heat the entire TU Delft campus.
- **Promote** the use of geothermal energy in the Netherlands for the energy transition.
- **Provide** the opportunity for research, education and development through the DAP-well.

About DAP

Stichting DAP (Delft Aardwarmte Project) is an initiative by students and alumni from the department of Geoscience and Engineering at TU Delft. It aims to provide the TU Delft with a sustainable heat source by realizing a geothermal doublet on campus.

Goal symposium

- Share latest research and developments in geothermal energy
- Bring the geothermal sector together
- Update on DAP-well progress

DAP symposium
15th October 2021
“Upscaling the Heat Transition”

Every 2 years, the DAP symposium is organised by students from the TU Delft.

Speakers

Jan Willem van Hoogstraten

Key-note speaker

Phil Vardon

Update DAP-well

Maren Brehme

TU Delft / ETH

Maurice Hanegraaf

TNO

Frank Schoof

Metropool regio Amsterdam
