Evaluation form: Computing Science Research Internship (NWI-IMC047)

A. Personal Information

Student name:
Student number:
Evaluator name:
Are you the student's daily supervisor?   yes   no

B. Assessment of research skills (45%)

	Unsatisfactory	Satisfactory	Good	Very Good
General research skills Identifying realizable research questions & goals.				
(Acquired) domain-specific expertise/skills Applying or adapting domain-specific methods.				
Communication & Interaction Incl. signalling problems/gaps in knowledge/skills.				
Creativity				
Initiative & Independence				
Way of working Organised, systematic, well-prepared for meetings, etc.				

C. Assessment of research contribution (30%)

	Unsatisfactory	Satisfactory	Good	Very Good
Progress made				
Quality of the work				

Please explain what the contribution was:

Optional: breakdown of contribution into specific outputs, e.g., software, documentation, (parts of) reports or articles, experiments, data sets, analysis, …

D. Internship report (15%)

	Unsatisfactory	Satisfactory	Good	Very Good
Description of activities				
Description of results				
Reflection Incl. career orientation & plans for Master thesis.				
Writing style				

E. Oral presentation (10%)

Presentation content	Unsatisfactory	Satisfactory	Good	Very Good
Substantiation Link from research question to research executed. **Coherence** **Completeness** Complete picture, separating main points and side issues.				

Presentation form	Unsatisfactory	Satisfactory	Good	Very Good
Structure Logical order. **Attractiveness** Liveliness, appealing to and connecting with the audience. **Interaction** Contact with audience, addressing questions. **Presentation technique.** Audibility, use of audiovisual equipment or other tools.				

F. Effort

	Unsatisfactory	Satisfactory	Good	Very Good
Preparation Preparation for meetings, taking initiative and raising items fro the agenda, delivering results on time. **Progress** Independence, guarding and adjusting goals, signalling and resolving gaps in knowledge. **Communication** Contact with supervisor. **Method of working** Systematic and purposeful; seeking feedback (also from others than supervisor) on output and functioning; response and follow-up on feedback.				

Optional: Further remarks.
