Grading table for Physics & Astronomy; **non-LAB VERSION**

studentnumber: studentname: name assessor:

	Elements	F	P	G	E	Grade (0 → 10)	
INTERNSHIP PERFORMANCE TOTAL: 50%	Understanding and application of the scientific literature					**Scientific comprehension – 20%**	☐
	Comprehension of the scientific goals and motivation						
	Comprehension/application of internship-related scientific theory						
	Development of internship-related scientific knowledge (e.g. techniques, methods, approximations)					**Methods & implementation – 65 %**	☐
	Critical thinking throughout the internship						
	Presence and participation					**Participation – 10 %**	☐
	Project management	0	½		1	**5 %**	
⌐→	**Assessment of Internship Performance**						☐
PRESENTATION TOTAL: 20%	Scientific language and quality of verbal presentation					**Presentation quality – 20 %**	☐
	Design and visual presentation						
	Motivation including scientific literature and background knowledge					**Presentation content – 60 %**	☐
	Approach ("how") e.g. methods, techniques, modeling, approximations						
	Presentation of internship results						
	Conclusion and outlook						
	Understanding and concise/precise answering of questions					**Question/Answer – 15 %**	☐
	Citations and referencing	0	½		1	**5%**	
⌐→	**Assessment of the Presentation**						☐
WRITTEN THESIS TOTAL: 30%	Literature overview					**Introduction – 20 %**	☐
	Introduction including the scientific motivation of the project						
	Approach ("how") e.g. methods, techniques, modeling, approximations					**Scientific results – 55 %**	☐
	Presentation of internship results						
	Presentation of scientific data (e.g. figures, errors, notation, etc.)						
	Conclusion and outlook					**Conclusion – 10%**	☐
	Design and layout					**Writing quality – 10%**	☐
	Language including scientific language and grammar						
	Information is properly referenced	0	½		1	**5%**	
⌐→	**Assessment of the Thesis**						☐

↓ Final Grade & Comments ↓

☐

For grades ≥ 8.0, please provide additional justification
