PROMOTIEONDERZOEK 'WERK NA KANKER' – HVA / OU

- ▶ Achtergrond: stijgend % van de werkzame beroepsbevolking heeft een kanker diagnose gehad.
- ▶ Late effecten van kanker of de behandeling → Werkvermogen?
- ▶ Invloed van diverse factoren, waaronder factoren in de context van werk?
- ▶ Promotieonderzoek: 5 deelstudies, waaronder een deelstudie met interviews, o.a. met job coaches.
- ▶ Start begin November 2019. Samenwerking met onderzoeksstage-studenten.

Vragen aan ICT dienst UvA-HvA:

Hoe samenwerken met studenten in afgeschermdde omgeving met juiste software?

Hoe zorgen dat studenten informatie niet kunnen downloaden, etc.?

Hoe regelen dat studenten tijdelijk toegang krijgen?

The screenshot displays the MAXQDA Analytics Pro 2018 (Release 18.0.2) interface. The main window shows a document browser with a single document titled "Document (1)" containing the text "This is a test..". An "Open project" dialog box is open, showing a file explorer view of the "nonshib-webdav" network drive. The dialog lists several folders and one project file:

Name	Date modified	Type	Size
Documents	5/9/2019 8:53 AM	File folder	
Photos	5/9/2019 8:53 AM	File folder	
test	10/14/2019 6:56 AM	File folder	
maxqda-project-001	10/14/2019 9:04 AM	MAXQDA 2018 Pr...	560 KB

The dialog box also shows the "File name:" field and a file type filter set to "MAXQDA 2018 Projects (*.mx1*)". The "Open" button is highlighted.
